## Providing peace of mind so you can focus on patient care

Bracco Technical Support Overview

On-site Repair & Preventative Maintenance Training

EmpowerCTA<sup>®</sup>+ Service Agreement

EmpowerMR<sup>®</sup> Service Agreement

## Sustained productivity

At Bracco we are committed to providing the highest quality, most comprehensive service and support in the industry. Bracco Technical Support provides you with peace of mind, so you can focus on patient care, not equipment.

With a variety of options designed to scale with your needs, our products are right for practices and institutions of any size.

- **Large on-site support:**

- Bracco Medical Technologies certified Biomed training

- **Support on demand:**

- Full warranty service
  - Preventative maintenance

**With over 90 managers, technicians, and engineers,** our service teams seamlessly work with you to maximize efficiencies and maintain patient care.

### Service Technician Territories

## On-site Repair & Preventative Maintenance Training

Bracco Medical Technologies offers On-Site Repair and Preventative Maintenance Training. Our Field Service Training team delivers an educational experience that utilizes a comprehensive blended learning approach. As part of the learning experience, participants will receive a system overview combined with the opportunity to utilize an individual training injector to perform service repair and Preventative Maintenance.

**With the Biomed option, your institution and Bracco Technical Support-trained employees will be able to perform:**

- System Configuration and Use
- System Troubleshooting
- Field Serviceable Calibrations
- Replacement of Field Serviceable Components
- Field Test Procedure
- Annual Preventative Maintenance

\* On-Site Repair and Preventative Maintenance Training takes place at Bracco Medical Technologies headquarters in Eden Prairie, MN.

## EmpowerCTA<sup>®</sup>+ Injector System

### INDICATIONS:

The EmpowerCTA<sup>®</sup>+ Injector System is indicated for the vascular administration of contrast and flushing media in conjunction with computed tomography (CT) scanning of the body with an optional interface to a CT scanner and an optional calculator for glomerular filtration rate (GFR).

The Extravasation Detection Accessory (EDA<sup>™</sup>) is an optional accessory and is indicated for the detection of extravasations of ionic and nonionic contrast during CT procedures using a power injector.

Protocols have been independently developed and are not intended as medical advice. Bracco and Bracco Injeneering S.A. shall not be responsible for any physicians' reliance on these or any other products.

### CONTRAINDICATIONS:

The EmpowerCTA<sup>®</sup>+ Injector System is not intended for use as a long-term infusion pump, nor is it intended to be used to inject any agents other than contrast or flushing media. Do not attempt to use the Injector for any other purpose (such as chemotherapy or drug infusion). The EmpowerCTA<sup>+</sup> Injector System should not be used to inject substances into nonvascular body cavities. Any applications of the EmpowerCTA<sup>+</sup> Injector System other than those described in its Operator Manual are inappropriate and should not be attempted.
